

The PRINCE2 Portfolio, Programme and Project Management Maturity Model (PRINCE2 P3M3) is a tool organizations can use to assess and benchmark their current maturity and effectively develop plans for improvement.

WHAT IS MATURITY AND WHY IT MATTERS?

Organizational maturity is a measure of an organization's ability to deliver predictable outcomes including on-time delivery, productivity, quality, compliance and customer satisfaction. Importantly, it has a proven link to an organization's likely success.

As an internationally recognized benchmark, PRINCE2 P3M3 maturity rating can also be shared externally to help drive confidence in your organizational capability.

WHY PRINCE2 P3M3 MATURITY MODEL?

PRINCE2 P3M3 is a recognized best practice management maturity model. It's used by enterprises across the globe to assess how they deliver management of portfolios, programmes and projects to identify opportunities for improvement.

GLOBAL RECOGNITION

PRINCE2 P3M3 is a proven maturity model with a name that's trusted by clients across the globe.

FLEXIBILITY AND ADAPTABILITY

A PRINCE2 P3M3 assessment can be scoped to include all three areas – Portfolio, Programme and Project management – or any combination of those.

COMPREHENSIVE VIEW

PRINCE2 P3M3 is a holistic model that analyses the balance between processes, tools, information and people's competencies.

HOW PRINCE2 P3M3 MATURITY MODEL HELPS BUSINESSES TO SUCCEED

PRINCE2 P3M3 allows you to determine your organization's current state, including strengths and weaknesses, so you know which changes will deliver the most value. PRINCE2 P3M3 delivers the following benefits:

-) Improved outcomes and return on investment on projects and programmes
- Enhanced delivery quality, which increases stakeholder satisfaction
- > Structures for managing continual improvement, including the integration of processes across the organization
- Increased focus on the maturity of the organization's capabilities, driving commitment to change
- > Recognition of previous investments, justifying business cases for change

"Delivering projects is not just about execution but realizing benefits and doing what's necessary to enhance those benefits. The PRINCE2 P3M3 assessment has created a culture in the PMO team to look for gaps in the system and make the necessary improvements; this is a language I'm glad to see in our PMO."

Majed Alkabeer - GD of Enterprise Project Management, Ministry of Energy, Saudi Arabia

PRINCE2 P3M3 STRUCTURE

PRINCE P3M3 reviews organizational maturity in Portfolio, Programme and Project Management against up to seven perspectives. The digital version of PRINCE2 P3M3 allows you to share data visualizations across these perspectives to get an 'at-a-glance' picture of your maturity level.

ASSESSMENT DELIVERABLES

As a result of a PRINCE2 P3M3 assessment, the consulting company conducting the assessment provides the customer with a report that typically outlines the following:

Areas for improvement -

These can be prioritised based on the risks they mitigate and the business value they help to deliver.

Critical success factors -

Key conditions that must be met to ensure the success of the improvement programme.

Current achievements -

If this is not the first assessment, the results can be compared with previously agreed improvement goals and shown in a dynamic (trend-based) view.

If agreed with the consultants, the report could also include additional elements, such as benchmarks or an improvement roadmap.

"PRINCE2 P3M3 gives an independent perspective about whether we are doing the right things and in the right way. Together with Management of Portfolios (MoP) best practice, it provides a very structured way to define what is needed in a complex environment such as government and break down the work needed to improve and step up to a higher level of portfolio management maturity."

Martijn Blok – Portfolio Manager, Ministry of the Interior and Kingdom Relations, the Netherlands

WANT TO ASSESS YOUR PORTFOLIO, PROGRAMME AND PROJECT MANAGEMENT MATURITY?

Whether you are looking to evaluate your current performance in portfolio, programme and project management or you're launching an improvement initiative, it's essential to lay the right foundations. Identify where your strengths and weaknesses lie – and how to ensure the success of your next steps. Choose one of our Accredited Consulting Partners (ACPs) and request a PRINCE2 P3M3 maturity assessment to get started.

Get off to a strong start!

"The structure and methodology of the PRINCE2 P3M3 assessment was extremely constructive. The real value of the PRINCE2 P3M3 model was that together we were able to sequence and prioritize relevant improvement efforts to gain immediate and tangible benefits, which then built the necessary momentum and support needed to tackle some of the more challenging findings."

Josh Watkin - Deputy Executive Director of PMO, Projects Division, Sydney Metro, Australia

Dream it, do it.

PeopleCert is the global leader in the certification industry, with a product portfolio of global best practice frameworks and certifications including ITIL® and DEVOPS INSTITUTE® for IT & Digital Transformation, and PRINCE2® for Project, Programme & Portfolio Management, as well as language qualifications through LANGUAGECERT®.

Our certifications are delivered across the globe, empowering people and organizations to achieve what they are capable of, improving organizational efficiency and realizing their life ambitions through learning.
